

## Dual Shaft Shredder - 54" x 36"

Used as test shredder for customer materials. Less than 20 hours actual run time. Complete with ram feed hopper for bulky, hard to feed parts.

New Price - \$155,181.00

Discounted Price - \$134,144.00

### Cutting Chamber Assembly:

- Heavy-duty 1" reinforced steel fabricated cutting chamber, precision machined and doweled for strength.
- One pair of 4 1/2" X 4 1/2" hexagonal 4140 alloy, hardened solid steel, counter rotating shafts.
- Spherical roller bearing flanged units with cast iron housing, padded flange, self-aligning, factory adjusted and sealed.
- Feed and discharge chamber opening 54" wide x 36" deep.
- Cleaning fingers between cutting blades to prevent material build-up.

### Drive Assembly:

- (2) Baldor, 25 HP, TEFC motor (230/460/3/60).
- (2) Sumitomo foot mounted Cyclo gear reducers to achieve shaft speeds of 10 and 12 RPM.
- HTD heavy-duty belt drives, pulleys and belt guards.
- (2) Gnd-Lign couplings between gear and shaft.

### Miscellaneous:

- Operation & maintenance manuals included with parts list.
- Hydraulic Ram Feed Hooper
- Hydraulic Tilt Back Hopper to allow easy cleaning.
- Hydraulic Pump to power ram and tilt.
- Approximate weight: 18,000 lbs.

### Electrical Control System

- Electrical equipment is designed for operation with 230/460, 3 phase, 60 hertz.
- All wiring in accordance with the National Electrical Code (NEC).
- All UL Approved components.
- All wiring numbered.
- Cutler Hammer / Eaton components.
- Cutler Hammer / Eaton PLC controller for sequencing shredder.
- NEMA 12 Enclosure including motor starters.
- Automatic mode with sequenced system start up. Manual mode with push buttons to start / stop equipment.
- E-stop button located on panel.
- Power on / running lights.

## Cummins Duster 6834- Portable Dust Collector

HP- 1 HP  
Inlet line size - 4"  
Model No. - 6834  
Manufacturer - Cummins  
Quantity Available - 1  
Discounted Price - \$ 275.00

## Air Table

Blower Connection Size - 6" OD  
Length - 72"  
Width - 20"  
Quantity Available - 1  
Includes Magnet to Catch Tramp Metal  
Discounted Price - \$ 275.00

## Live Bottom Bin / Material Feeder

Dimensions - 48" x 48" x 42" Tall  
HP - 1.5 HP - 230/460/3/60  
Screw Size - 6" diameter in 7" tube  
Quantity Available - 1  
Discounted Price - \$ 2,850.00

## Custom Pick-up Hopper

Hopper Size - 60" x 60"  
Blower Connection Diameter - 14"  
Height - 42"  
Carbon Steel Construction  
Quantity Available - 1  
Discounted Price - \$ 200.00

## Manifold

(4) 3" OD diameter ports converging into (1) 4" diameter port  
Height - 19" Tall  
Carbon Steel Construction  
Quantity Available - 2  
Discounted Price - \$75.00 EA

## Custom Airveyor / Pick-Up Hopper

Hopper Size - 14" x 14"  
Blower Connection Diameter - 6" OD  
Height - 23"  
Carbon Steel Construction  
Quantity Available - 1  
Discounted Price - \$ 75.00

## Cyclone No. 7 - 1069 CFM Rating

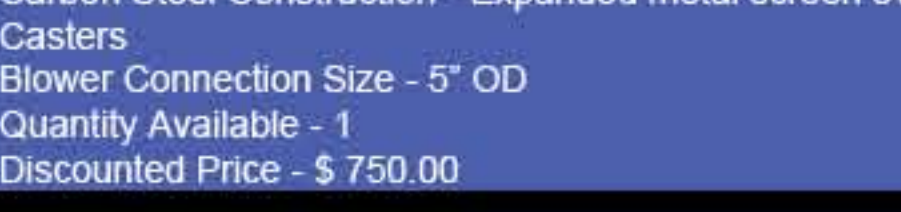

5" OD inlet  
6" OD material discharge, flanged and gusseted  
Carbon Steel construction, unpainted  
Quantity Available - 1  
New Price - \$1,363.00  
Discounted Price - \$850.00

## Sound Enclosure

Dimensions 28" x 36" x 36" tall  
2 PC Clamshell design  
Quantity Available - 2  
New Price - \$1,363.00  
Discounted Price - \$ 700.00

## Sound Enclosure

Dimensions 37" x 46" x 28" tall  
2 PC Clamshell design  
Quantity Available - 1  
New Price - \$1,521.00  
Discounted Price - \$850.00

## Downdraft Work Table

Dimensions - 36" x 48" x 32" tall  
Carbon Steel Construction - Expanded metal screen over top opening  
Casters  
Blower Connection Size - 5" OD  
Quantity Available - 1  
Discounted Price - \$ 750.00
