

Sterling's DIRECT DRIVE BLOWERS

Ultra High Efficiency...Built to Last

Quality Design

- Housing and base feature all-welded, heavy gauge steel construction with hand finished interior to prevent material build-up and contamination.
- TEFC dual wound motor with shaft seal standard on all models.
- Housing, impeller, or motor easily replaced if worn or damaged.

Durable

- Unique design features make blower ideal for rugged material handling applications.
- Also available in our Diamond Line Series...THE answer to abrasive material applications such as hard plastics, glass-filled materials, rubber, etc.

Versatile

- Blowers are custom-designed to meet the customer's application.
- Sixteen different discharge positions available for all models.
- Optional stainless steel construction available for all models.
- Sound enclosures and silencers are available to quiet the operation of the unit
- All components are stocked, offering the quickest available delivery in the industry.
